Customer Problem Statement Template:

Creating a clear customer problem statement allows us to view challenges directly from our core users' perspective. This structured approach ensures that our final data visualizations focus explicitly on solving operational hurdles, eliminating procedural guesswork, and creating experiences that deliver immediate strategic value.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A Retail Store Manager	Optimize the physical layout of our retail sales floors to consistently maximize average sales volume across different product departments.	I am forced to rely on standard routines, habits, and merchant gut intuition rather than empirical placement analytics.	Our transaction metrics remain trapped inside dense, unorganized, and disconnected CSV data spreadsheets.	Frustrated and Uncertain
PS-2	A Retail Category Planner	Align specific product placement configurations (such as Premium End-caps and Aisles) directly with our targeted consumer	I cannot cleanly isolate which store display zones yield the highest sales lift for	We currently lack an interactive dashboard framework to filter location metrics and buyer demographics	Overwhelmed and Vulnerable
